

Surge Protection Technology

Belkin is committed to offering state-of-the-art technology at an affordable price. Only the highest-quality components are used and each Belkin surge protector has been tested to meet or exceed all applicable standards.

Take a look at our top-of-the-line model's inside:

(Model No. F9G826vzb3M)

Get the Right Surge Protection From the Industry Leader

BELKIN®

Why Belkin Surge Protector?

The only brand in Asia that offers **Connected Equipment Warranty**
Max. Damage Coverage Rs. 100,000

Design in U.S.A.
 Provide **high quality** surge protection

Manufacturer's Lifetime Warranty
 Belkin will replace, **free of charge**, any Surge Protector that is defective or expires after protecting your electronic devices

Surge Protector
OVER 50 MILLION IN USE WORLDWIDE!

- **Protect** your computer, TV, music system, printers and other electrical equipment from frequent power cuts.
- **Prolong** the life-span of computers and LCD / Plasma TVs.
- **Response Time:** The amount of time it takes for the unit to clamp or suppress the surge. **All Belkin surge protectors have a < 1 nanosecond (a billionth of a second) response time.**
- **Noise Filtration:** Prevents AC line contamination that leads to computer lockups, audio video interference and data loss.

The Belkin Surge Protector is your premiere solution for clean, safe power and the industry's best in construction, ratings, and safety standards.

Never worry with Belkin's

The Only Brand in India to offer Connected Equipment Warranty
Max. Damage Coverage Rs. 100,000

Your Guide to Belkin Surge Protection

OVER 50 MILLION IN USE WORLDWIDE!

belkin.com

Technical Support Hotline 1800-419-5546

Designed in USA

Understand The Potential Dangers

-  Power surges and lightning strikes are not the only things that can damage your home electronic equipment.
-  Simply switching appliances on and off can create electrical imbalances that cause cumulative, permanent damage to your electronic equipment.
-  Surge travel along cable, telephone, and Ethernet lines, too.
-  All unprotected electronic equipment is at RISK!

Choose The Right Protector

Belkin surge protection charts and colour-coded packaging allow you to select the right surge protector for your application. You can protect everything from stereos to computers with Belkin power protection products.

Gold Series

2,444 JOULES
86,000 AMPS
Maximum Spike Current

Professional Workstations | Home Theatre Systems | Projection TVs | Ethernet Networks

CEW Max. Damage Coverage Rs. 100,000

Superior Series

1,411 JOULES

Select The Right Features

-  **Joules**
It is a measurement of energy. The higher the joule rating, the better your electrical devices will be protected.
-  **Socket**
Indicates number of sockets.
-  **Power Cord**
Indicates the length of power cord with optimal safe AC power.
-  **Cable Management**
Creates an uncluttered workstation area free of a cable-tangling mess.
-  **Ethernet / Broadband Protection**
Safeguards your modem, Ethernet and DSL lines with both network and phone line protection.
-  **Phone / Modem / DSL Protection**
Safeguards your phone, fax, modem and DSL lines while making 2 ports out of one.
-  **Aerial Cable Protection**
Protects your TV, VCR, DVD and cable lines from damaging power surges and spikes.
