# Trimpot® Trimming Potentiometers

## Applications

Brightness/contrast controls

Microcontrollers

Phone headsets

Power supplies

Credit card readers

CATV decoders

Plasma televisions

LCD controllers

Lighting controls

Smoke detectors

Speakers

Process controllers

Temperature sensors

Torque sensors

Base stations

Stereo equipment

Voltage meters

Magnetic card readers

RF meters

Controller daughter boards

Printers

Two-way radios

Security systems

Disk drives

Satellite receivers

A/D converters

## Types Available:

- Surface mount
- Through-hole
- Single-turn
- Multiturn
- Sealed
- Open frame

## Features:

- Top, bottom, side, front and back adjust
- 2 mm to 12.7 mm sizes
- Tube, bulk, embossed tape, ammo pack, radial tape and reel
- Compatible with pick and place equipment

# Linear Motion Potentiometers

## Applications

Position sensing

Copy machine cassette  
paper size selectors

Infusion pumps

Rear view mirror  
position feedback

## Types Available:

- Rectangular body
- Flexible lead
- Conductive plastic element

## Features:

- 0.12 to 0.25 watt power ratings
- 3.81 mm to 12.7 mm stroke lengths
- 500,000 cycles actuation life
- 1k ohm to 50k ohm standard resistance values

# Resistor & RC Networks

## Applications

Access equipment

Bar code scanners

Cable boxes

Computer peripherals

Consumer electronics

Data communication

Fax equipment

Modems

Monitoring equipment

Portable power  
generators

Satellite systems

Telecom switching  
devices

Test equipment

## Types Available:

- Thick film resistor networks
- Thin film resistor networks
- Resistor/capacitor (RC) networks
- Capacitor networks
- RoHS compliant units available in all models

## Features:

- Surface mount and through-hole mounting
- SIP and DIP packages
- Molded and conformal-coat packages
- Standard resistance values from 10 ohms to 10 megohms
- Custom networks for non-standard circuits and values
- SIP package height as low as 0.195 inch
- Operating temperature range of  $-55^{\circ}\text{C}$  to  $+125^{\circ}\text{C}$

# Switches

## Applications

Instrumentation

Industrial controls

Communications  
equipment

Computers

Security systems

Appliances

Automotive

Audiovisual

## Types Available:

- Rotary
- Tactile

## Features:

- Surface mount and through-hole mounting
- PC pins, gull wing, and J-hook terminal styles
- Sealed and boardwashable types
- 3, 4, and 6 mm sizes
- Tube and embossed tape carrier packaging

7914

7829

7813

7814

# Chip Resistors & Chip Arrays

## Applications

Current sense

Cellular and cordless phones

Communications interface

Flashlights

Intercom systems

Internet telephony

Local area networks

Measurement equipment

Portable digital assistants

Portable tools

Remote controllers

Telecom switching devices

Test equipment

## Types Available:

- Thick film chip arrays
- Thick film chip resistors
- Thin film chip resistors
- Metal film chip resistors
- RoHS compliant units available in all models

## Features:

- Standard resistance values from .001 ohms to 10 megohms
- Standard resistance tolerances .01 %, 1.0 % and 5.0 %
- Chip resistors from 0201-size to 2512-size
- Chip arrays from 0402 x 2-size to 0603 x 8-size
- Operating temperature range of -55 °C to +125 °C

# Modular Contacts

## Applications

Cellular phones

PDA's

Laptop computers

Rechargeable battery packs

## Types Available:

- Male
- Female

## Features:

- Precious metal
- 2-6 contacts
- 2.54 mm, 4.0 mm pitch and height
- Through-hole and surface mount
- Normal force – 80 grams minimum
- Contact resistance –  $< 0.030$  ohms
- Tube, embossed tape, 13" reel packaging

# Inductors & Transformers

## Applications

Battery chargers

CD players

Data communication

Global positioning systems

Internet equipment

Local area networks

Monitoring equipment

Portable radios

Portable tools

Test equipment

Televisions

Video conferencing equipment

Automotive

Telecommunications

## Types Available:

### Chip Inductors

- Laser-spiraled
- Molded wirewound
- Multilayer ceramic
- Multilayer ferrite
- Open wirewound

### Power Inductors

- Non-shielded
- Shielded
- High current toroids
- Dual chokes

### Chip Beads

- Low impedance
- High current
- High impedance

### Transformers

- Line-matching
- Wideband
- ISDN
- xDSL
- LAN
- PoE/VoIP

## Features:

- Standard inductance values from 1.0 nH to 500 mH
- 20 models of chip inductors
- More than 80 models of surface mount power inductors
- More than 50 models of through-hole power inductors
- Available in a wide range of sizes
- Operating temperature as high as 150°C
- Sealed and open construction
- Surface mount and through-hole models

# Diodes

## Applications

Cellular phones

PDA's

Desktop PCs & notebooks

Digital cameras

MP3 players

Base stations

## Types Available:

- Switching diodes
- Schottky barrier diodes
- Zener diodes
- Schottky rectifier diodes
- Fast response rectifier diodes
- High voltage rectifier diodes
- Transient voltage suppressor (TVS) diodes
- Transient voltage suppressor (TVS) diode arrays
- Steering diode arrays
- Bridge rectifier diodes

## Features:

- RoHS compliant\*
- Surface mount devices
- Leadless - DFN2, DFN4, DFN6, DFN10, 0603, 1005, 1206, 1408, 1607, 2010 & 2320 packages available
- SMA, SMB, SMC, SOT563, SC70-6, SOT23 & SOT23-6 packages available
- 8L & 16L NSOIC, 16L WSOIC & 10L MSOP packages available
- Tape & reel packaging

# Thin Film on Silicon Networks

## Applications

Computers

Automotive

Telecommunications

Industrial controls

Consumer products

Medical products  
(excluding critical life support)

Instrumentation

## Types Available:

- Thin film on silicon networks:  
1 %, 2 %, 5 % standard, 0.8 %, 0.5 % precision

## Features:

- Isolated resistor, bussed resistor & termination networks
- RC & T filtering networks
- Diodes for ESD protection
- Low TCR & TTCR precision values
- SMD, NSOIC & QSOP packaging with 8 to 28 pins, depending on circuit

# Power Resistors

## Applications

Couplers

Isolators

Filters

White goods

Motor controllers

Power supplies

Metering

## Types Available:

- TO220 packages
- Flange mounts
- Chips
- Wirewound
- Metal alloys
- Thick film technology

## Features:

- Through-hole and surface mount
- $0.002\ \Omega$  to  $100\text{k}\Omega$
- 0.5 watts to  $>800$  watts
- 0.1 % to 5 % tolerances
- Operating temperature up to  $275\ ^\circ\text{C}$
- Low TCR
- Frequency range from DC to 9 GHz

# Multifuse® freeXpansion™ Products

## Applications

USB 2.0, USB 3.0 & HDMI  
port protection

PC motherboards -  
plug & play protection

Mobile phones -  
battery & port protection

PDA's / digital cameras

Industrial controllers

Portable medical devices  
(excluding critical life support)

Portable memory

Game consoles

GPS navigation systems

## Types Available:

- MF-FSMF Series  
(0603 / 1608 metric)
- MF-PSMF Series  
(0805 / 2010 metric)
- MF-LSMF Series  
(2920 / 7555 metric)
- MF-MSMF Series  
(1812 / 4532 metric)
- MF-USMF Series  
(1210 / 3225 metric)
- MF-NSMF Series  
(1206 / 3216 metric)
- Easily customizable

## Features:

Unique freeXpansion™ design  
provides:

- Smallest PTCs
- Highest voltage withstand
- Highest hold current ( $I_{hold}$ )
- Extended product life
- Greater resistance stability

# Multifuse® PTC Resettable Fuses

## Applications

Computers

Batteries

Automotive

Telecommunications

Industrial controls

Portable electronics

Medical products  
(excluding critical life support)

Point of Sale

Game consoles and toys

Security systems

DC motors

## Types Available:

- Radial leaded through-hole
- Surface mount (0805, 1206, 1210, 1812, 2018, 2920 & 3425)
- Axial leaded battery strap
- Unencapsulated disk

## Features:

- 6 to 90 V operating voltages
- Hold currents from 50 mA to 11.0 A
- Agency approval - UL, CSA & TÜV
- Interrupt voltages of 250 V and 600 V with surge capabilities for assisting in meeting US and international telecom requirements
- High temperature polymers available with operating temperatures between  $-40^{\circ}\text{C}$  to  $+125^{\circ}\text{C}$
- Custom designs available upon request
- Bulk, embossed tape and ammo pack packaging
- RoHS compliant\* standard & halogen free upon request

# TBU™ Electronic Current Limiters

## Applications

POTS linecards

VoIP equipment

ONUs and ONTs

Gateways and modems

10/100 & Gigabit Ethernet

VDSL interfaces

Remote metering & surveillance

Avionics (DO160)

Rail and mass transit

Industrial automation

Test equipment

RS232, RS422, RS485, CANbus and LVDS

## Introduction:

TBU products are high-speed electronic current limiters designed to protect against faults caused by short circuits, AC power cross, induction and lightning surges.

The TBU blocks surges, providing a barrier to sensitive electronics and eliminating exposure to large voltages or currents during surge events.

## Features:

- Extremely high-speed performance
- Blocks high voltages & currents
- Exceptionally low let-thru energy
- Very high bandwidth, GHz compatible
- UL recognized components

# TISP<sup>®</sup> Thyristor Surge Protectors

## Applications

Central office POTS

Access equipment POTS

Fiber to the home

xDSL and integrated linecards

PABX protection

VOIP protection

xDSL modem protection

ISDN linecards and NT equipment

V.92 modems

Cordless DECT and analog phones

Set top boxes

## Types Available:

- Unidirectional
- Bidirectional
- Programmable

## Features:

- Protection voltages from 15 V to 700 V
- Dedicated SLIC protection
- Telephone port protection
- VDSL protection
- UL recognized
- Enables Telcordia GR-1089, UL 60950, FCC (TIA), ITU-T, IEC & YD/T compliance
- 25 years experience in telephone protection

SMB

SOIC Wide Body

SMAJ

SOIC

# Line Protection Modules

## Applications

Telecom circuit protection

## Types Available:

- Through-hole
- Surface mount
- Multifunction modules

## Features:

- Precision tolerance overcurrent protection
- Resistance values from 5.6 ohms to 100 ohms
- Withstands lightning surge and AC power cross
- Assists in meeting Telcordia GR-1089 and ITU-T K.20/K.21/K.45 specifications
- Operates safely under fault conditions
- Nonflammable
- UL 497A recognized
- One shot fuse options
- Resettable fuse options
- Custom designs available

# Gas Discharge Tubes (GDT)

## Applications

Telecommunications

CATV/broadband

Industrial and process  
control

Transportation signaling

Consumer electronics

## Types Available:

- TRIGARD® - 3 electrode balanced GDTs
- Mini-TRIGARD™
- MSP® protectors
- 2 electrode GDTs

## Features:

- 75 V to 1100 V operating voltages
- Multiple lead configurations
- Surface mount
- Tape and reel packaging
- Switch-grade fail-short
- High surge-energy handling
- Low capacitance
- UL, Telcordia, REA, IEEE, ITU-T and IEC recognition

# Telefuse™ Telecom Fuses

## Applications

Telecom circuit protection

## Types Available:

- Surface mount

## Features:

- Telecom overcurrent protection
- Withstands lightning surge and AC power cross
- Assists in meeting Telcordia GR-1089 and UL 60950 specifications
- Operates safely under fault conditions
- RoHS compliant\*

# ESD Protection Solutions

## Applications

General purpose  
ESD protection

High speed  
communication ports  
such as USB 2.0,  
IEEE1394, HDMI  
Gb ethernet

Fast communication  
ports such as USB 1.1,  
10/100b ethernet ports

RS232, RS422 & RS485  
type applications

## Types Available:

- Transient voltage suppressor (TVS) diodes
- Transient voltage suppressor (TVS) diode arrays
- Steering diode arrays
- ChipGuard® ESD suppressors
- Schottky diode arrays

## Features:

- Active & passive elements in a single package
- Excellent high frequency response
- ESD protection to industry specification IEC 61000-4-2
- Minimum 8 kV contact and 15 kV air discharge ESD withstand
- SMT Packages (0402, DFN2, 0603, 0805, 1206, DFN4, DFN6, DFN10, SOD323, SOT563, SC70-6, SOT23, SOT23-6, SOT143A, NSOIC 8L, NSOIC 16L & MSOP 10L)

# Ceramic PTC Products

## Applications

*Overcurrent protection for telecom applications:*

Customer premise equipment (CPE)

Central office (CO)

Access equipment POTS

xDSL and integrated linecards

PABX protection

VOIP protection

Set top boxes

## Types Available:

- Radial leaded through-hole
- Surface mount
- Dual packaged surface mount
- Dual packaged radial leaded through-hole
- Unencapsulated disk or chip

## Features:

- Aids compliance with:
  - ITU-T K.20/21/45
  - *Telcordia GR-1089-CORE*
  - *UL 60950, 3rd Edition*
- UL recognized
- Matching available with narrow resistance tolerance
- Alternative tolerances and resistances on request
- RoHS compliant\*

# SinglFuse™ Thin Film Chip Fuses

## Applications

Portable memory

LCD monitors

Disk drives

PDA's

Digital cameras

DVD players

Cell phones

Rechargeable  
battery packs

Battery chargers

Set top boxes

Industrial controllers

## Types Available:

- Fast acting fuse
- Slow blow fuse
- Surface mount
- 3 available footprints:
  - 0402 (1005 Metric)
  - 0603 (1508 Metric)
  - 1206 (3216 Metric)

## Features:

- Single blow fuse for overcurrent protection
- UL certified
- Surface mount packaging for automated assembly
- Thin film chip fuse
- RoHS compliant\* and halogen free
- Wide range of both fast & slow blow fuses in 3 product sizes

# Microelectronic Modules

## Applications

Telecommunications

Fiber optic assemblies

Instrumentation

Industrial controls

Medical equipment  
(excluding critical life support)

Automotive

## Types Available:

- Single in line package
- Dual in line package
- SMT
- BGA
- System in package
- Custom packages

## Features:

- High density thick film
- Fine pitch SMT
- Chip & wire
- Flip chip
- Stud bump bonding
- RF packaging

Chip Scale Packaging

Fiber Optic

Thick Film Modules

Medical Implant

GPS/Wi-Fi/Bluetooth

# Commercial Panel Controls & Encoders

## Applications

Musical instrumentation

Commercial audio equipment

Consumer grade audio mixers

DJ equipment

Communications equipment

Test and measurement instrumentation

Consumer audio

Guitars

## Types Available:

### Panel Controls

- Rotary
- Motorized rotary
- Slide (open frame & metal housing)

### Encoders

- Incremental contacting

## Features:

### Mounting Options

- Bushing
- Bushingless
- PC mount
- Solder lug

### Sizes (vary by model)

- 9 to 24 mm (rotary panel controls)
- 10 to 100 mm (slide panel controls)
- 12 and 16 mm square (encoders)

### Options

- Panel controls:
  - Rotary switch option<sup>†</sup>
  - Multi-cup option<sup>†</sup>
  - Push/pull switch option<sup>†</sup>
  - T-bar lever option<sup>†</sup>
- Encoders:
  - Detents available on some resolutions
  - Momentary push switch

<sup>†</sup> available on some models

# Industrial Encoders

## Applications

Audiovisual equipment

Household appliances

Musical instrumentation

Professional audio

Communications  
equipment

Industrial heavy  
equipment

Medical equipment  
(excluding critical life support)

Test and measurement  
instrumentation

Scanners and copiers

Robotics

Forklifts and material  
handling

## Types Available:

- Incremental contacting
- Incremental magnetic
- Absolute contacting
- Absolute/PWM magnetic
- Incremental optical

## Features:

### Mounting options

- Bushing
- Snap-in
- PC board
- Servo

### Resolution

- Contacting – 6 PPR to 36 PPR options
- Optical – 25 PPR to 256 PPR options
- Magnetic - 32 PPR to 512 PPR and 1024 PPR states options

### Sizes (vary by model)

- 9, 16, 22 mm square  
& 16 mm x 22 mm

### Options

- Detents available on some models
- Momentary push switch available on some models
- Shaftless versions
- IP 67

# Industrial Panel Controls

## Applications

Test and measurement instrumentation

Amplifiers

Medical instrumentation and equipment (excluding critical life support)

Irrigation controls

Video conferencing equipment

Industrial equipment controls

Environmental test equipment

Automotive front panel controls

Guitars

## Types Available:

- Rotary

## Features:

### Mounting options

- Bushing
- Snap-in
- PC mount
- Reverse audio

### Output

- Linear
- Custom taper
- Audio taper

### Sizes (vary by model)

- 9 to 23 mm

### Terminal Styles

- PC pins
- Solder lugs

### Options

- Flexible lead-wires
- Rotary switch option<sup>†</sup>
- Multi-cup option<sup>†</sup>
- Boardwash seal option<sup>†</sup>

<sup>†</sup> available on some models

# Precision Controls

## Applications

Communications  
equipment

Test and measurement  
instrumentation

Amplifiers

Medical instrumentation  
and equipment  
(excluding critical life support)

Industrial equipment  
controls

Environmental test  
equipment

## Types Available:

- Rotary
- Digital push-button

## Features:

### Mounting options

- Bushing
- Snap-in
- PC mount
- Servo mount

### Output

- Linear
- Custom taper
- Audio taper
- Reverse audio

### Sizes (vary by model)

- 13 to 51 mm diameter

### Terminal Styles

- PC pins
- Solder eyelets
- Turret terminals
- Insulated flexible wire leads

### Options

- Rotary switch option<sup>†</sup>
- Single and multiturn models<sup>†</sup>
- Multi-cup option<sup>†</sup>
- Boardwash seal option<sup>†</sup>

# Turns-Counting Dials

## Applications

Power supplies

Test and measurement  
instrumentation

Medical instrumentation  
and equipment  
(excluding critical life support)

Industrial equipment  
controls

Environmental test  
equipment

Automation control  
panels

## Types Available:

- Digital
- Concentric dial

## Features:

### Materials

- Metal (industrial)
- Plastic (commercial)

### Turns

- Up to 30 turns available

### Sizes (vary by model)

- 22 to 46 mm

### Options

- Black face and silver face dials available
- Locking brake

# Solutions in Sensor Technology

## Applications

- ABS wheel speed
- Accelerator pedal
- Active steering
- Brake pedal module
- Chassis level
- Electric park brake
- EPAS
- Exhaust gas recirculation
- Fuel tank level
- Gear position
- Steer -by-wire
- Steering torque
- Throttle position
- Transmission speed

## Types Available:

- Customer specific
- Position, speed and torque sensors

## Features:

- Contacting and non-contacting solutions
- Engineering support capabilities
- All manufacturing sites are TS 16949 certified
- In-house design, tool making, screen printing, cermet firing & injection molding capabilities
- Development of proprietary resistive ink
- Innovative and cost-effective solutions

# Automotive Circuit Protection

## Applications

Window regulators

Seat adjustment motors

Sunroof activation motors

Powerbus (mode protection) applications

Other DC motor applications

Car alarm systems

Power steering motors

GPS shark fin antennae

Cooling & HVAC systems

Electronic control unit (ECU) input/output protection

Load dump and other transient voltage protection

Infotainment, telematics and navigation input/output protection

## Types Available:

- TVS diodes
- Multifuse® PTC resettable fuses
- Metal alloy stunts
- ChipGuard® MLVs

## Features:

- Overcurrent and overvoltage protection for automotive applications
- TS 16949 quality system
- Resettable PTCs suitable for application temperatures up to 125 °C
- Majority certified to AEC-Q200-Rev C
- Wide range of current ratings 0.05 - 20 A
- Dedicated automotive CP team

Seat Adjustment Motor

Sunroof Activation Motors

Multifuse® PTC Resettable Fuses

Multifuse® PTC Resettable Fuses

# Fuel Cards

## Applications

*Fuel level sensing in fuel delivery systems:*

Scooters/motorcycles

Passenger cars

Light duty trucks

SUVs

Off-road equipment

## Types Available:

- Rectangular ceramic substrates
- Various ink systems:
  - Resistor
  - Terminations/wiper tracks
  - Protective glazes/polymers
- Wires attached
- Tinned solder pads
- Single or double side printing

## Features:

- Customer specific patterns
- Up to 100 discrete resistance steps
- Typical resistance ranges from 95 ohms to 1.7k ohms
- Rated current 100 mA
- In line, 100% dynamic electrical test
- Life cycles:
  - Up to 1 million dry
  - Up to 3 million wet

Fuel Cards
