ARRA

Cooper Lighting is uniquely positioned to help customers take advantage of the vast opportunities brought forth by the passing of the American Recovery and Reinvestment Act (ARRA)

The American Recovery and Reinvestment Act

On February 17, 2009 Congress passed the final version of the financial stimulus legislation "American Recovery and Reinvestment Act," also called ARRA. ARRA contains a strong "Buy American" provision to ensure the support of domestic companies and domestic workers.

Elements of the Act

- Revive the renewable energy industry and provide the capital over the next three years to eventually double domestic renewable energy capacity.
- Enact the largest increase in funding of our nation's roads, bridges, and mass transit systems since the creation of the national highway system in the 1950s.
- Invest \$4.5B on Energy Delivery and Reliability, and \$16.8B on Energy Efficiency.

We have added an additional column to the Cooper Lighting stock guide so that you will be able to easily identify products in our inventory that meet ARRA requirements.

Look for the ★

This guide only represents a small portion of the products Cooper Lighting has to offer. If you have any questions or need additional information on these or other products that are to be used on ARRA Stimulus, or government projects please contact one of our customer service experts and they will give you detailed information to ensure the product qualifies for the specific project.

ARRA identified items in this guide are for informational purposes only and represent products that Cooper has initially determined to be eligible under the Buy American provision (section 1605) of the American Recovery and Reinvestment Act (ARRA) for federally-funded ARRA projects.

Cooper Lighting will provide an appropriate certification upon request after reviewing eligibility requirements and funding sources of a specific project.

As noted in this guide, the products were produced in the United States, in a Free Trade Agreement (FTA) country, a Least Developed Country (LDC), or in a World Trade Agreement Government Procurements Agreement (WTO GPA) country. If produced in an FTA country, LDC, or WTO GPA country, Cooper Lighting understands that the project must meet the applicable contract thresholds in order for the goods to be eligible for ARRA funding.

Cooper Lighting has not sought nor has it received any waiver of the ARRA Buy American provision.

This guide does not provide country of origin or certification that any listed products satisfy the requirements of any applicable free trade agreements.

***Remember, The Buy American Indicator ★ is for Stock Guide items ONLY.
For all other products, please contact your Customer Service Representative.***
