

DAYCO® GOLD LABEL® Industrial V-Belt

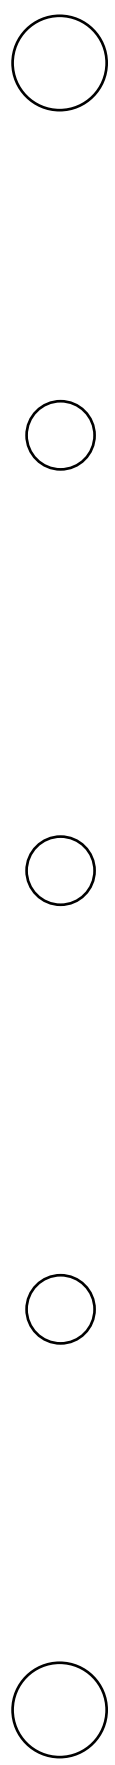

Series: AP/BP/CP/DP/EP
Meets RMA Standards IP-20

Designed for use in applications with higher horsepower and shock loads. The Dayco Gold Label Industrial V-Belt is constructed with a double fabric cover to handle the most demanding industrial applications ranging from 1 to 1,000 horsepower and up to 8000 RPM. The belt's dual fabric covering provides excellent resistance to oil, heat and weather while delivering the flexibility required to enable it to run on smaller sized pulleys. The Dayco Gold Label Industrial V-Belt is the ideal performance choice for an extremely wide range of applications.

DAYCO® GOLD LABEL®
 Premium Industrial
 V-Belt

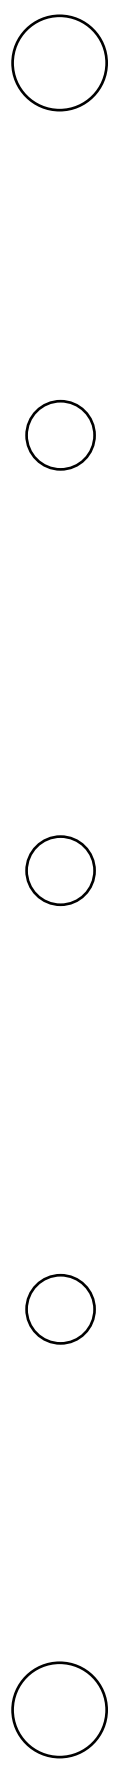

Series: AX/BX/CX
Meets RMA Standard IP-20

Designed for smaller drive envelopes and higher horsepower ratings. The Dayco Gold Label Premium Industrial V-Belt's precision molded cog design reduces bending stress and dissipates heat which maximizes belt life. The high modulus polyester cord offers strength and stability for high horsepower loads, while the raw edge sidewall construction produces a high coefficient of friction for a tighter grip on the pulley resulting in reduced slippage. This belt is an excellent choice for applications calling for compact drive systems utilizing smaller pulleys and shorter center drives.

DAYCO® GOLD LABEL®
V-Wedge Belt

Series: 3V/5V/8V
Meets RMA Standard IP-22

Designed for smaller more compact drives. The Dayco Gold Label V-Wedge Belt offers, in addition to oil and heat resistance, excellent flexibility and static dissipation. This wrapped belt's narrower, deeper wedge configuration allows for more efficient load carrying and higher horsepower capabilities. for smaller, more compact drives.

DAYCO® GOLD LABEL® VX-Wedge Belt

Series: 3VX/5VX
Meets RMA Standard IP-22

Designed for applications requiring increased horsepower capacity and/or higher speeds. Dayco's Gold Label VX-Wedge Belt features a unique construction consisting of extremely flexible precision molded cogs, raw edge sidewalls for tenacious gripping power and high grade engineered polymer compounding for resistance to oil and heat. The Dayco Gold Label VX-Wedge Belt provides significantly longer belt life without jeopardizing increased horsepower capacity and/or higher speed drives.

DAYCO® FHP Utility V-Belt

**Series: 3L/4L/5L
Meets RMA Standard IP-23**

Designed for use on lawn & garden, home, farm or shop applications. Featuring a rubber impregnated wrapped fabric cover, high modulus polyester cord and specially formulated belt core, the Dayco FHP Utility Belt offers superior performance. Designed for use with light duty motors utilizing small diameter pulleys, this Dayco FHP Utility Belt delivers extreme flexibility and smooth quiet operation over a multitude of light duty drive applications. Note: Not for use on clutching drives

DAYCO® GPL® Premium Utility V-Belt

Series: L3/L4/L5
Meets RMA Standard IP-23

Designed for heavy-duty use on lawn & garden, home, farm, shop or industrial applications.

Dayco's GPL Premium Utility V-Belt operates efficiently even when subjected to temperature extremes, high humidity, moisture, grit, oil and grease. Aramid fiber cord protects against shock loading and stabilizes belt length. The specifically engineered cover, which closely resembles OEM type belts (salt and pepper pattern) allows for easy product identification and delivers optimum controlled clutching and maximum power transfer.

DAYCO®

Double Angle V-Belt

Series: AA/BB/CC
Meets RMA Standard IP-21

Designed for serpentine and reversing drives. The Dayco Double Angle V-Belt transmits power from either side of the belt. Polyester cords and a durable cotton/ polyester cover delivers maximum strength and length stability while ensuring resistance to heat, ozone, grease, oil and dirt. Specially formulated core compounding provides for long life and high horsepower capabilities. This belt flexes equally well in either direction and provides natural wedging action on both sides for maximum power.

DAYCO® GOLD LABEL® Industrial Banded Belt

Series: RB/RC/RD
Meets RMA Standards IP-20

Designed for high horsepower and shock load applications. The Dayco Gold Label Industrial Banded Belt features the same wrapped molded construction...and the same oil and heat resistant characteristics... as Dayco's Gold Label Industrial V-Belt **plus** the addition of a fabric-rubber top band for multiple belt stability. These banded belts are primarily employed on applications where single or multiple belts, when subjected to fluctuating load tensions and high horsepower, have the tendency to vibrate, turn over or come out of the pulleys.

Belt No.	List Price	Weight (Lbs.)	Outside Circumference (In.)

DAYCO® GOLD LABEL® V-Wedge Banded Belt

Series: R3V/R5V/R8V
Meets RMA Standard IP-22

Designed for high horsepower applications. Dayco's Gold Label V-Wedge Banded Belt features a specially compounded wrapped cover. This, combined with the belt's narrower, deeper wedge configuration, polyester cord and fabric-rubber top banding, eliminates belt whip and turnover and permits the drive to tolerate peak shock loads more effectively.
