

LDR series power supply

Description

The LDR series power supply have the advantage of small size, light weight, din rail installation. It is used in Industrial control equipments, Communications equipment, etc.

Features

- 1、 AC input range selectable by switch
- 2、 Buit-in EMI filter
- 3、 Protections: Short circuit / Ooverload / Over voltage / Over temperature
- 4、 Cooling by free airconvection
- 5、 Can be installed on DIN rail TS-35/7.5 or 15
- 6、 UL 508(industrial control equipment) listed
- 7、 100% full load burn-in test

Specification

Model No .		LDR-75-24	LDR-120-24
AC input voltage range		85-265 (VAC) 面板開關選擇輸入電壓 85-265 (VAC) selectable by switch	
AC inrush current		40A、 230VAC	
Overload protection		constant current limting, auto-recovery	
OVP	Range	115%~142% rated out put voltage, Shut off, AC recycle to re-start	
	Type		
Working temp		-10℃-60℃	
Output voltage		DC12V, DC24V, +10%(Adjustive)	
Power		75W	120W
Dimension (W × H × D) (mm)		55.5 × 125.2 × 100	65.5 × 125.2 × 100
