PC Board Crimp Terminal

90198 Stand Alone Board-In

Features and Benefits

- Terminal locking lance holds wire in PCB for soldering
- Design allows both wire and terminal to be soldered and assures proper solder flow
- Insulation support prevents damage to the wire or solder joint
- Low profile—total height above PCB is less than most components (2.80mm/.106")
- No terminal resistance, resistance is limited to integrity of the solder joint
