Quality and performance make 3M a leader with a variety of safety products, sorbents, reflective tapes and traction systems.

Safety and comfort are the two main concerns in the development of 3M safety and protection products. Whenever work is done in environments that require the use of safety and protection, we can help you meet

applicable OSHA regulations. 3M can provide the products you need for a variety of applications.

3M's quality and performance standards ensure that you'll get the job done quicker and easier with 3M products.

3M Filtering Facepiece Respirator Technologies

3M™ Cool Flow™ Exhalation Valve	Faceseal	Advanced Electret Media	Carbon Filter Material	Cake-Resistant Filter Media	Adjustable Buckle Straps	Compatibility
						
Patented one-way valve for easy exhalation and cool, dry comfort	Soft and secure, conforms closely to face for long-lasting comfort and protection (8212 & 8214 only)	Electrostatically charged microfibers make breathing easier and cooler	Carbon layers remove many nuisance level odors* for greater comfort and productivity (8212 & 8214 only)	Specially designed filter layers for welding applications provide longer respirator life and easier breathing	A single tug helps provide a comfortable, secure fit	Accommodates a wide range of safety equipment, including eye and hearing protection

* Nuisance level refers to concentrations below the OSHA PEL or other applicable government occupational exposure limits, whichever is lower.

Personal Safety

Respiratory Protection for a Wide Range of Industrial Applications

Industrial workers may require protection from a wide range of airborne particles including those generated from sweeping, grinding, sanding, welding and bagging applications. The respiratory protection products that workers use must be able to handle tough conditions. 3M offers a broad selection of innovative NIOSH 42 CFR 84 approved respirators.

Respirators

3M™ Particulate Respirator 8511, N95

Uniquely designed to help provide protection against certain non-oil based particles. It is ideally suited for work settings that involve heat, humidity, or long periods of wear. Workplace applications include grinding, sanding, sweeping, bagging and other dusty/hot operations. It features the 3M™ Cool Flow™ Exhalation Valve, braided headbands, soft inner materials, and adjustable M-noseclip to help provide a custom fit and secure seal.

3M™ Particulate Respirator 8200, N95

Designed to help provide protection against certain non-oil based particles. Economical, lightweight protection with an adjustable noseclip and nose foam to help provide a custom fit and secure seal.

3M™ Particulate Respirator 8210, N95

- NIOSH 42 CFR 84 N95 approved
 - Use for dusts encountered during sanding jobs and installation of fiberglass insulation
 - Adjustable noseclip helps provide a custom fit and secure seal
 - Lightweight construction promotes greater worker comfort
- Retail Pack: 8654ES

3M™ Particulate Respirator 8210 Plus, N95

The 8210 Plus, N95 features our Advanced Electret Media. Features include comfort straps, soft nose foam, and a staple free attachment, which are designed to be soft against the face and neck.

3M™ Particulate Respirator 8247, R95 with Nuisance Level Organic Vapor Relief*

- NIOSH 42 CFR 84 R95 approved:
- Lightweight construction
- Helps protect against certain oil and non-oil based particles, including those present with nuisance levels* of organic vapors such as solvents and resins

Retail Pack: 8656ES

* 3M recommended for relief against nuisance levels of organic vapors. Nuisance level refers to concentrations not exceeding OSHA PEL or other applicable government occupational exposure limits, whichever is lower.

3M™ Particulate Respirator 8515, N95

Economical welding respirator with 3M M-Noseclip to help provide a custom fit and secure seal and welding web technology with flame resistant filter media.

3M™ Particulate Welding Respirator 8212, N95 with Faceseal

- NIOSH 42 CFR 84 N95 approved
- Use for metal fumes from welding, soldering and other operations where metal fumes may be present
- 3M™ Cool Flow™ Exhalation Valve
- Lightweight construction
- Faceseal contours easily to help provide a good seal
- Adjustable noseclip

Retail Pack: 8660ES

3M™ Particulate Welding Respirator 8214, N95 with Faceseal and Nuisance Level Organic Vapor Relief*

- NIOSH 42 CFR 84 N95 approved
- Use for metal fumes from welding, soldering and other operations where metal fumes may be present
- 3M™ Cool Flow™ Exhalation Valve
- Lightweight construction
- Comfortable to wear
- Fully adjustable straps

*3M recommended for ozone up to 10X OSHA PEL or applicable government exposure limit. Not NIOSH approved for ozone. Helps provide relief from nuisance level organic vapors. Nuisance level refers to concentrations below OSHA PEL or other applicable government occupational exposure limits, whichever is lower.

3M™ Dual Cartridge Respirator Assembly, Organic Vapor/P95

- NIOSH approved: OV/P95 for use against certain airborne organic vapors and particles (42 CFR 84)
- 3M recommended for paint spray, organic vapor or pesticide applications
- Do not use for asbestos or sandblasting
- Maintenance free, disposable
- Lightweight, dependable, economical

51P71 (small), 52P71 (medium), 53P71 (large)

3M™ Particulate Respirator 9210/37021(AAD), N95

Is a breakthrough in comfort and convenience. This three-panel respirator with innovative design is uniquely designed to help provide comfortable, reliable worker protection against non-oil based particles.

3M™ Particulate Respirator 9211/37022(AAD), N95

Is a breakthrough in comfort and convenience. This three-panel respirator with innovative design is ideally suited for work settings that involve heat, humidity, or long periods of wear.

7502 Half Facepiece

- Designed for wearer comfort and face fit
- Soft sealing surface
- Uniquely designed, 3M™ Cool Flow™ Exhalation Valve

6800 Full Facepiece

- Silicone face seal enhances comfort and improves durability
- Wide field of vision
- Approved for use in both negative and positive pressure systems

WARNING

These respirators help reduce exposure to certain airborne contaminants. Before use, the wearer must read and understand the USER Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. **Misuse may result in sickness or death.** For proper use, see packaging instructions, supervisor, or call 3M OH&ESD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

Hearing Conservation

Optime™ 98 Over-the-Head Earmuffs, H9A

- Lightweight - headband
- NRR 25 dB*
- Dual low pressure bands improve comfort
- Broad foam cushions provide low surface pressure

E-A-R™ Muffs - Model 3000, 330-3002

- NRR 26 dB* behind-the-head
- Headband can be worn over-the-head, behind-the-head, or under-the-chin
- Made of durable, lightweight, non-conductive dielectric plastic

Optime™ 98 - Helmet Attachable Earmuffs, H9P3E

- Lightweight - helmet attachment
- NRR 23 dB*
- Dual low pressure bands improve comfort
- Broad foam cushions provide low surface pressure

E-A-R™ UltraFit™ Plugs with Cotton Cord, 340-4036

- NRR 25 dB*
- Patented flange design helps provide comfortable fit
- Conforms to shape of ear canal
- Washable, promotes worker hygiene
- No rolling or touching plug portion during insertion

* Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earplug fit and wearing time. It is recommended that the NRR be reduced by 50% for estimating the average amount of noise reduction provided.

E-A-R™ Caps™ Model 200 Hearing Protectors, 321-2101

- NRR 17 dB*
- Non-invasive, comfortable hearing protection
- Band helps prevent loss and is ideal for intermittent use

E-A-R™ Poly Con Carrying Case, 390-9003

- Carrying case for convenient and hygienic storage

E-A-R™ UltraFit™ Plugs, 340-4003

- NRR 25 dB*
- Patented flange design for remarkable fit and comfort
- Conforms to shape of ear canal
- Washable, promotes worker hygiene
- No rolling or touching plug portion during insertion

E-A-Rsoft™ Yellow Neons™ “Regular Size” Uncorded in Poly Bag, 312-1250

- NRR 33 dB*—Highest NRR available
- Self-adjusting foam provides low pressure with excellent attenuation

E-A-Rsoft™ Yellow Neons™ “Regular Size” Corded in Poly Bag, 311-1250

- NRR 33 dB*—Highest NRR available
- Self-adjusting foam provides low pressure with excellent attenuation
- Dermatologically safe foam is non-irritating to the skin

E-A-R™ Caps™ Model 200 Spare Parts, 321-2103

- Replacement pods for use with 350-2100 and 321-2101

* Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earplug fit and wearing time. It is recommended that the NRR be reduced by 50% for estimating the average amount of noise reduction provided.

E-A-R™ Muff Cushions, 331-3010

- One pair replacement cushions and foam inserts for all E-A-R earmuffs

Replacement Hygiene Kit for H31 Earmuff Cups, HY3

- Replacement hygiene kit for all H9 muffs - (1 pair cushions & 1 pair foam inserts/dampers)

3M™ Foam Ear Plugs 1100

- Smooth, dirt-resistant surface
- Tapered design to fit ear canal
- Bright orange for visibility
- Noise reduction rating of 29 dB*

3M Foam Ear Plug 1110, Coded

- Smooth, dirt-resistant surface
- Tapered design to fit ear canal
- Bright orange for visibility
- Cloth cord for convenience
- Noise reduction rating of 29 dB*

WARNING

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. **Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury.** For proper use, see supervisor, User Instructions, or call 3M in U.S.A. at 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing earplugs. Failure to do so may result in hearing loss or injury.

*Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earplug fit and wearing time. It is recommended that the NRR be reduced by 50% for estimating the average amount of noise reduction provided.

Eye Protection

482/4 Chemical Splash Goggles with Clear Frame and Clear Lens, 40802-00000-10

- Impact-resistant polycarbonate lens
- Indirect venting for maximum ventilation
- Meets the requirements of ANSI Z87.1-2003 and CSA Z94.3-2007
- DX™ anti-fog hard coat protects lens from fog, scratching and most chemicals

Virtua™ V7, Clear Temples, Clear Hardcoat Lens, 11691-00000-20

- Frameless unisex design
- Soft universal fit nosebridge
- Durable polycarbonate lens construction
- Lens absorbs 99.9% UV
- Meets the requirements of ANSI Z87.1-2003

958B Tour-Guard™ III, Clear, Bulk Package, 41120-00000-100

- Impact-resistant Duralite® polycarbonate construction
- Regular size fits over most prescription eyeglass frames
- Absorbs 99.9% UV rays
- Meets the requirements of ANSI Z87.1-2003 and CSA Z94.3-2007

332/4 Impact Goggles, Clear, 40650-00000-10

- Impact-resistant polycarbonate lens
- Meets the requirements of ANSI Z87.1-2003

332/4 Chemical Splash Goggles, Clear, 40660-00000-10

- Impact-resistant polycarbonate lens
- Meets the requirements of ANSI Z87.1-2003

Virtua™ V4 Black Temple/Gray overmold, Clear Hardcoat Lens, 11670-00000-20

- Soft, dual injected temples for comfortable all day wear
- Popular unisex styling
- Rugged polycarbonate lens construction
- Lightweight
- Meets the requirements of ANSI Z87.1-2003

Virtua™ Gray Temples, Gray Lens (Hardcoat), 11327-00000-20

- Meets the requirements of ANSI Z87.1-2003
- Sleek - Styling with both men and women
- Lightweight - Less than 1 oz
- Contoured flexible temples for comfortable fit
- Hard coat protects lens from scratching

X.Sport™ with Silverized Temple and Clear Lens™, 15182-00000-20

- Sleek temples hug the head for ultimate comfort
- 7.5 Base curve lens provides maximum coverage and field of vision
- DX™ anti-fog hard coat protects lens from fog, scratching and most chemicals
- Soft, universal-fit nosepiece
- Meets the requirements of ANSI Z87.1-2003 and CSA Z94.3-2007

Nassau™ Plus, Fighter with Black Temple and Clear Lens, Bulk Pack, 14347-00000-100

- DX™ anti-fog hard coat protects lens from fog, scratching and most chemicals
- Duralite® Polycarbonate lenses absorb 99.9% of UV rays
- Meets the requirements of ANSI Z87.1-2003 and CSA Z94.3-2007

Virtua™ Clear Temples, Clear Lens (Hardcoat), 11326-00000-20

- Meets the requirements of ANSI Z87.1-2003
- Sleek - Styling with both men and women
- Lightweight - Less than 1 oz
- Contoured flexible temples for comfortable fit
- Hard coat protects lens from scratching

Nassau Rave™ with Black Frame and Gray Lens, 14453-00000-20

- New, patented “Vertically Vented” brow guard
- Lens angle and temple length are adjustable for a custom fit
- DX™ anti-fog hard coat protects lens from fog, scratching and most chemicals
- Meets the requirements of ANSI Z87.1-2003 and CSA Z94.3-2007

Virtua™ V4 Black Temple/Gray overmold, Indoor/Outdoor Mirror Lens, 11674-00000-20

- Soft, dual injected temples for comfortable all day wear
- Popular unisex styling
- Rugged polycarbonate lens construction
- Lightweight
- Meets the requirements of ANSI Z87.1-2003

Medium Lexa™ with Red/White/Blue Temples & Clear Lens, 15258-00000-100

- DX™ anti-fog hard coat protects lens from fog, scratching and most chemicals
- Duralite® Polycarbonate lenses absorb 99.9% of UV rays
- Nine task-specific lens tints and shades
- Meets the requirements of ANSI Z87.1-2003 and CSA Z94.3-2007

Virtua™ V4 Black Temple/Gray overmold, Gray Hardcoat Lens, 11671-00000-20

- Soft, dual injected temples for comfortable all day wear
- Popular unisex styling
- Rugged polycarbonate lens construction
- Lightweight
- Meets the requirements of ANSI Z87.1-2003

Orange County Choppers™ Silver Frame, Blue Lens, 11444-00000-10

- Contemporary style

Face and Head Protection

H8A Deluxe Ratchet Headgear, 82501-00000

- Ratchet head size adjustment and five-position pinlock crown strap
- Floating window suspension distributes weight and reduces shock impact
- Can be used in high-heat applications - ambient air temperatures up to 300°F

White Bump Cap 4PT Pinlock, 46525-00000

- Protection from minor bumps, bruises & lacerations
- Four point washable suspension
- Easy pinlock adjustment
- Fits head sizes 6.5 to 7.75
- Perforated vents keep head cooler

WP96AF Clear Polycarbonate Anti-Fog Window, 82704-00000

- Heavy duty impact protection
- Good heat resistance
- Anti-fog coating for increased visibility
- Windows mount inside crown for added support
- Size 9" X 14.5" X 0.080"

White XLR8™ Hard Hat with 6-pt. Pinlock Suspension, 45964-00001

- Revolutionary design with real hard hat wearers in mind
- Customize with "Quick Snap" suspension and universal accessory slots
- Value priced 6-pt pinlock suspension
- Woven nylon suspension for ultimate comfort
- Fully dielectric/meets ANSI Z89.1-2003 Type I, Class C, G, E

WP96R Clear Polycarbonate Window, 82579-00000*

- General purpose face protection
- Good heat resistance
- Windows mount inside crown for added splash protection
- Size 9" X 14.5" X 0.040"

* Faceshield only, does not come with headgear

Yellow XLR8™ Hard Hat with 6-pt. Pinlock Suspension, 45963-00001

- Revolutionary design with real hard hat wearers in mind
- Customize with "Quick Snap" suspension and universal accessory slots
- Value priced 6-pt pinlock suspension
- Woven nylon suspension for ultimate comfort
- Fully dielectric/meets ANSI Z89.1-2003 Type I, Class C, G, E

Hi-Viz Orange XLR8™ Hard Hat with 6-pt. Pinlock Suspension, 45968-00001

- Revolutionary design with real hard hat wearers in mind
- Customize with “Quick Snap” suspension and universal accessory slots
- Value priced 6-pt pinlock suspension
- Woven nylon suspension for ultimate comfort
- Fully dielectric/meets ANSI Z89.1-2003 Type 1, Class C, G, E

XLR8™ 6-pt. Pinlock Replacement Suspension, 45977-00001

- Featuring easy “Quick Snap” suspension
- Woven nylon suspension for ultimate comfort

White XLR8™ Hard Hat with 6-pt. Ratchet Suspension, 45995-00001

- Revolutionary design with real hard hat wearers in mind
- Customize with “Quick Snap” suspension and universal accessory slots
- Value priced 6-pt ratchet suspension
- Woven nylon suspension for ultimate comfort
- Fully dielectric/meets ANSI Z89.1-2003 Type 1, Class C, G, E

Yellow XLR8™ Hard Hat with 6-pt. Ratchet Suspension, 45969-00001

- Revolutionary design with real hard hat wearers in mind
- Customize with “Quick Snap” suspension and universal accessory slots
- Value priced 6-pt ratchet suspension
- Woven nylon suspension for ultimate comfort
- Fully dielectric/meets ANSI Z89.1-2003 Type 1, Class C, G, E

Hi-Viz Orange XLR8™ Hard Hat with 6-pt. Ratchet Suspension, 45974-00001

- Revolutionary design with real hard hat wearers in mind
- Customize with “Quick Snap” suspension and universal accessory slots
- Value priced 6-pt ratchet suspension
- Woven nylon suspension for ultimate comfort
- Fully dielectric/meets ANSI Z89.1-2003 Type 1, Class C, G, E

XLR8™ 6-pt. Ratchet Replacement Suspension, 45978-00001

- Featuring easy “Quick Snap” suspension
- Woven nylon suspension for ultimate comfort

3M™ Glo-Mega™ Hard Hat 1910GL, Ratchet Suspension

Unique formulation is designed to glow in the dark after being exposed to a light source. Excellent for use in dark environments. Illumination visible for 48 hours when properly charged. Comfort features include brow pad, 6-point ratchet suspension.

This hard hat meets the requirements of the American National Standard for Industrial Head Protection ANSI Z89.1-2003, Type I, Class C, E and G.

The Glo-Mega Hard Hat features a unique formulation designed to Glow-In-The-Dark after being exposed to a light source. Excellent for use in dark environments, such as night construction and mining. Illumination is visible for 48 hrs. when properly charged. To charge hard hat, expose it for 10 to 20 minutes in sunlight for best results. It can also be exposed to bright fluorescent light for 30 minutes. Twenty minutes of exposure near a 40-watt incandescent bulb will generate a significant glow.

Additional comfort features include replaceable cushioned brow pad and a 6-point ratchet textile suspension.

Accessory slots accommodate a variety of eye, face and hearing products.

Environmental Safety

10 Ways to Reduce Sorbent Costs

1. Sorbent Selection

Choose an efficient sorbent. If you select a sorbent with high capacity, you will use less, and there will be less waste after use, reducing disposal costs. A waste minimization and disposal cost reduction program should include participation from purchasing, user and environmental responsibilities to cover all PLD (purchase + labor + disposal) factors. Consider the disposal options up front. Can the sorbent be landfilled, incinerated, or used in a waste-to-fuel burner?

2. Selective vs. Non-Selective Sorbent

Pick the right product for the application. To separate oil from water, use a selective sorbent; also use a selective sorbent to pick up oil outdoors where rain or other water may be present. For other situations, to pick up both oil- and water-based fluids, a non-selective sorbent is best.

3. Identify Needs

Take a plant tour to identify the best sorbent product for the job. Many convenient formats—rolls, pads, booms, pillows, rugs and drum covers—are available to meet your needs. Use a multi-format sorbent, such as 3M™ Folded Sorbent, to meet a variety of needs and save on inventory.

4. Use Dispensers

Cutting to length or width needed avoids over use. Get the cost benefit of purchasing in bulk rolls.

5. Use Sorbents to Full Capacity

To get the benefit of efficient sorbents, it is necessary to leave them in position longer. Let them work for you and fewer changes will be necessary.

6. Separate Fluids

Use a centrifuge to separate sorbed fluids for reclaiming or recycling. Sorbents may be reusable. An EPA study has demonstrated savings of 51% to 75% when sorbents are reused from 2 to 8 times.

7. Identify Waste Streams

Don't mix hazardous and non-hazardous waste. As an example, mixing a small amount of chlorinated solvent with a drum of recyclable oils will classify the whole drum as hazardous waste and greatly increase the disposal cost.

8. Compress Waste

If a compressible sorbent is used, the volume of waste can be reduced by compacting. Removal of fluids with a wringer or centrifuge will give an initial reduction in volume. A drum or trash compactor will reduce the volume further. Since disposal costs are based primarily on volume, significant savings may be achieved. In some areas mobile extraction and compacting services are available.

9. Training

Costs associated with use of sorbent materials are often underestimated and overlooked. Economical use can be as simple as using sorbent on the equipment or at the source of the leak before it spreads across the floor. User training is essential to change attitudes and get buy-in for total overall cost savings.

10. Use Resources

Call your local 3M representative or the 3M technical hot line at 1-800-243-4630 for help with product selection. Your regional EPA office can help you find the waste disposal service companies in your area and help you select the most cost-effective disposal method.

Cost Comparison: 3M™ Sorbents vs. Clay Granules

Materials

2/3 case M-PD1520DD (66 pads)
1 case will absorb approximately 37.5 gallons
(1 case = 100 pads)

5.7 - 50 lb. bags
1 - 50 lb. bag will absorb
approximately 4.4 gallons

Labor

6.7 lbs. sorbent + 182.5 lbs. oil = 189.2 lbs.
189.2 lbs. at 6 lbs. per minute clean-up =
32 minutes of worker time

285 lbs. clay + 182.5 lbs. oil = 467.5 lbs.
467.5 lbs. at 2 lbs. per minute clean-up =
234 minutes (plus breaks) of worker time

Drums and Disposal

0.5 drum to hold sorbent and fluid
for disposal

1.6 drums to hold clay granules
and fluid for disposal

Calculations are estimated for cleaning up 25 gallons of fluid. 3M sorbent capacities are based on 3M laboratory data. Clay granule data was obtained from the Sorptive Mineral Institute. Labor savings are based on data collected by 3M and a major U.S. manufacturer and reflect an expected labor savings in most operations.

Maintenance Sorbents

3M™ Maintenance Sorbent-Folded M-FL550DD High Capacity

- All-purpose sorbent—four sorbent configurations in one
- Ideal for plants and facilities
- Cleans up non-aggressive fluids, including cutting oil, coolants, aqueous-based liquids and petroleum based products
- Dust-free and contains no abrasive granules that could damage equipment
- Handy dispenser box for on-site use

SUGGESTED APPLICATIONS

- Industrial machinery leaks, drips, spills and splashes of non-aggressive maintenance fluids
- Wiping down oily tools and equipment
- Tabletops and under work surfaces
- Indoor vehicle/equipment parking areas—fork trucks, compressors, and lift equipment
- Areas where an oily mist is problematic
- Under oily machined metal parts while they drip off prior to packing and shipping

Application Guide

Carry

Tear

Unopened

Around Corner

Unfold

Open

3M™ Maintenance Sorbent Pads, High Capacity, M-PD1520DD and M-PD720GG

- Low-profile design that is perfect for placing in, under, and around machines to catch drips
- Ideal for tight areas, cleaning up small spills, and wiping down oily tools and equipment
- Highly absorbent and nongranular
- Ideal for use in drip pans

3M™ Maintenance Sorbent Rolls, High Capacity, M-RL15150DD, M-RL38150DD

- Designed to cover large surfaces
- Perfect for lining drawers, covering workbenches, or masking larger areas
- Used to cover and sorb large spills, or in areas where spills may occur
- Available in two convenient widths—15 and 38 inches
- Convenient in that they can be cut to the desired length

3M™ Maintenance Sorbent Mini-Booms, M-MB304, M-MB308, M-MB312

- Ideal for placing around equipment to contain spills and to prevent leaks from spreading to adjacent work areas
- A 3-inch diameter with scrim on the outside of mini-boom identifies the use while containing particulate sorbent material designed for that application

3M™ Maintenance Sorbent Pillow M-PL715

- Can be placed quickly at the source of a leak, helping to save cleanup time
- Ideal for use in a drip pan, under equipment, or at the source of a large leak
- Small and lightweight
- Tear-resistant and features a high capacity for holding liquid

3M™ Maintenance Sorbent Rugs M-RG36300E and M-RGC36100E

- Help keep shop floors cleaner and safer
- Absorb most shop fluids and oils without breaking down
- Rugs resist tearing and can withstand heavy traffic
- M-RGC36100E has one side coated to reduce slipping and acts as a fluid barrier

3M™ Maintenance Sorbent Drum Cover M-DC22DD High Capacity

- Designed to be used on a 55 gallon drum to catch drips and spills that occur during the dispensing of all types of non-aggressive materials used in daily operations
- Designed with cut-outs for dispensing bungs and a skirt which fits neatly around the base of the drum to catch any drips that would normally end up on the floor

Petroleum Sorbents

3M™ Petroleum Sorbent Folded P-FL550DD, High Capacity

- Easy-to-use solution for cleaning spills, drips and fluid leaks
- Four sorbents in one. It can be used as a boom, pillow, pad, or roll, which means you stock fewer products to meet your sorbent needs
- Perforations every 16 inches allow you to select the length required, so there's less wasted sorbent
- High water repellency
- Saves money as oil and not water is recovered
- Can be used outside as well as in-plant
- A handy dispenser box for easy, on-site use

3M™ Petroleum Sorbent Pads, High Capacity, HP-156 and HP-157

- Convenient sizes, allows the user to quickly spread sorbent on and in the path of a spill
- Pads may also be used on a work surface in anticipation of a spill, or as a wipe
- A selective sorbent which will “sorb” hydrocarbon-based liquids (oleophilic) and repel aqueous-based liquids (hydrophobic)
- High capacity sorbents have a scrim on one side to increase strength and reduce linting

3M™ Petroleum Sorbent Pads, High Capacity HP-255 and HP-256

- Can be placed directly on machinery or tucked in and around machines to catch and contain leaking lubricants
- Can be used to wipe contaminated surfaces
- Twice as thick as a standard pad
- High capacity in a low-profile design
- Extra sorbency into tight areas
- They absorb petroleum-based liquids and repel water

SUGGESTED APPLICATIONS

- Controlling, cleaning up and recovering oil and petroleum based liquids from effluent discharge, streams, ponds, lakes, rivers, and other bodies of water
- In-plant spills under leaking equipment and machinery in place of clay granules
- In drains and sumps to collect petroleum products from runoff

3M™ Petroleum Sorbent Roll HP-100, High Capacity

- Designed to cover large areas
- Perfect for lining drawers, covering workbenches, or masking areas from oversprays
- Can be cut to cover small areas or can be laid on open waters, shorelines, or discharge streams
- One bale of HP-100 petroleum sorbent material will absorb up to 73 gallons of petroleum-based liquid
- Can be wrung out and reused many times over to reduce waste and reclaim fluids

3M™ Petroleum Sorbent Mini-Booms, T-4, T-8 and T-12

- A selective sorbent which will “sorb” hydrocarbon-based liquids (oleophilic) and repel aqueous-based liquids (hydrophobic)
- Typically used because of their tube-like shape to encircle spills and contain leaks
- A 3-inch diameter with scrim on the outside of mini-boom identifies the use while containing particulate sorbent material designed for that application

3M™ Petroleum Sorbent Mini-Pillow T-30

- Can be used in areas where more capacity is desired than can be achieved using a sorbent pad
- Pillows are designed with a scrim that encases particulate sorbent material
- Pillows are small, lightweight, and tear-resistant
- A selective sorbent that will “sorb” hydrocarbon-based liquids (oleophilic) and repel aqueous-based liquids (hydrophobic)

3M™ Petroleum Sorbent Drum Cover P-DC22DD, High Capacity

- Designed for use on a 55-gallon drum to catch drips and spills that occur during the dispensing of hydrocarbon materials
- Designed with cut-outs for dispensing bungs and a skirt that fits neatly around the base of the drum to catch drips that would normally end up on the floor
- A selective sorbent that will “sorb” hydrocarbon-based liquids (oleophilic) and repel aqueous-based liquids (hydrophobic), allowing them to be used in outdoor areas where drums are stored
- Scrim located on one side to increase strength and reduce linting

3M™ Petroleum Sorbent Pads T-151, T-156, and T-157

- A selective sorbent that will “sorb” hydrocarbon-based liquids (oleophilic) and repel aqueous-based liquids (hydrophobic)
- Each bale of T-151 pads absorbs 43.5 gallons, contains 200 pads that are 17 inches by 19 inches, and weighs 20 pounds
- Conveniently sized, pads will allow the user to quickly spread sorbent on and in the path of a thin spill
- T-151 pads are half as thick as the T-156 pad, making them an excellent wipe for petroleum-based liquids
- The T-156 and T-157 sorbent pads are extremely easy to apply, retrieve, and reuse
- Pads are recommended for congested areas such as under docks, in shallow water, rocky shorelines, marshes, and beaches
- Pads can also be used to wipe off oil-contaminated rocks, boats, and equipment
- Ideal for in-plant use in place of clay granules

3M™ Petroleum Sorbent Rolls T-100, T-190

- Can be used on all sizes of spills and discharges
- Can be cut to cover small areas or laid directly on open waters, shorelines, or discharge streams
- Can be placed on docks, in boats, and under leaking machines

3M™ Petroleum Sorbent Boom T-270

- Recommended for controlling and absorbing spills and effluent discharges in ditches, streams, rivers, lakes, and terminal docks and piers
- Can be linked together by built-in connectors to overlap and deploy over large areas
- Designed for long-term deployment
- UV resistant, will not deteriorate or disintegrate and has an inner scrim to reduce linting
- Will absorb the oil as they aid in containing it

3M™ Petroleum Sorbent Double Boom T-280

- Constructed more rigidly to facilitate handling in those hard-to-get at areas and to make it easier to turn over for full saturation
- Features a unique double-cylinder design to maximize absorption and minimize the escape of traces of oil in flowing water

3M™ Petroleum Sorbent Sweep T-126

- Excellent for sweeping thin slicks on water where mechanical skimmers fail
- Built in rope facilitates sweeping action over large surface areas
- Can also be placed downstream from booms to recover any escaping traces of oil

3M™ Petroleum Sorbent Pillow T-240

- A selective sorbent that will “sorb” hydrocarbon-based liquids (oleophilic) and repel aqueous-based liquids (hydrophobic)
- Excellent for handling large quantities of light oil in confined spaces such as sumps, catch basins, bilges, or settlement ponds
- Designed for long term use, they are UV resistant and will not deteriorate or sink

3M™ Petroleum Sorbent Static Resistant Roll HP-500, High Capacity

- Specifically designed to be used for the safe cleanup of highly flammable petroleum-based liquids
- Specially treated to resist static charge build-up and can be used effectively and efficiently when conditions are likely to produce static arcing—such as when relative humidity is low (below 20%) or when temperatures fall below freezing
- Absorb up to twice as much oil and flammable liquid by weight as standard melt-blown static resistant sorbents—on land and on water
- Results in less sorbent waste, lower cleanup costs, and less time spent cleaning up spills

3M™ Petroleum Sorbent Static Resistant Pads, High Capacity, HP-556, HP-557

- Designed specifically to be used for the safe cleanup of highly flammable petroleum-based liquids
- Specially treated to resist static charge build-up and can be used effectively and efficiently when conditions are likely to produce static arcing—such as when relative humidity is low (below 20%) or when temperatures fall below freezing
- Absorb up to twice as much oil and flammable liquid by weight as standard melt-blown static resistant sorbents—on land and on water
- Results in less sorbent waste, lower cleanup costs, and less time spent cleaning up spills

Chemical Sorbents

3M™ Chemical Sorbent Folded C-FL550DD, High Capacity

- Easy-to-use for emergency response situations
- Four sorbents in one. It can be used as a boom, pillow, pad, or roll, allowing you to stock just one product for emergency response
- Perforations every 16 inches allow you to select the length you need, so there will be less wasted sorbent
- Made from chemically inert polypropylene material—recommended for use with chemicals such as acids and bases as well as aqueous- or hydrocarbon-based fluids
- Comes in a handy dispenser box for easy, on-site storage and improved response time
- Uses 3M's high-capacity sorbent technology—increased fluid-holding capacity which means less sorbent is used and there's less sorbent waste for disposal
- Includes directions for sorbent use right on the box

3M™ Chemical Sorbent Pads C-PD914DD, High Capacity

- Ideal for cleaning up small spills and wiping down contaminated areas. Twenty-five pads per dispenser box
- Highly absorbent and non-granular, pads feature a low-profile design so they can be easily placed in tight areas

3M™ Chemical Sorbent Rolls, High Capacity C-RL15150DD, C-RL38150DD

- Designed to cover large surfaces, rolls can be easily cut to cover small areas or fit tight corners
- Can be used to cover bench tops in anticipation of a spill while also acting as a work surface
- Available in two convenient widths—15 and 38 inches.

SUGGESTED APPLICATIONS

- Cleaning up hazardous chemical spills, drips, and leaks
- Ideal for rapid response containment and cleanup
- Hazardous material shipping
- Cover bench tops in anticipation of a spill
- Wiping up contaminated areas

3M™ Chemical Sorbent Mini-Booms P-200, P-208, P-212

- Ideal for placing around hazardous liquid spills to prevent them from spreading
- They work quickly, giving you time to ensure proper cleanup while reducing employee exposure

3M™ Chemical Sorbent Pillow P-300

- Can be placed quickly at the source of a leak or thrown into the contained spill, helping to save hours of cleanup time
- Small, lightweight pillows feature a high capacity for holding liquid

3M™ Chemical Sorbent Pads P-110

- Designed with quick and easy response in mind
- Pads are a convenient 11 inches by 13 inches in size
- Packaged in convenient dispenser boxes, they can be stored in confined spaces or mounted on the wall near where spills may occur
- Fifty pads per dispenser box

3M™ Chemical Sorbent Rolls P-130, P-190, P-380

- Designed with quick and easy response in mind
- Rolls come in 13, 19 and 38 inch widths, and each is 100 feet long

3M™ Chemical Sorbent Particulate P-500

- Particulate materials can be used in packaging applications where breakage of a container could cause a release of a hazardous liquid
- Material may also be sprinkled over a spill or broadcast over a large area
- A non-selective sorbent that will “sorb” most aggressive chemicals and is designed for use in spill response applications

3M™ Chemical Sorbent Spill Kits and Response Pack

- Chemical folded sorbent spill kits are the perfect solution for emergency response flexibility. With all of the features of 3M folded sorbent, they can be used with most hazardous liquids
- Compact for easy storage—ideal for rapid response
- The 31-gallon spill kit is packed in an element-resistant 20-gallon drum, which is color coded yellow for easy identification

3M™ Chemical Sorbent Folded Spill Kit C-SKFL5, Chemroll, 5 Gallon

Contents

- 3 rolls Chemroll Chemical Sorbent Folded per case
- Each Chemroll is 5" x 26' with perforations every 16" (19" x 26' fully opened)
- Comes complete with one temporary disposal bag and tie
- It can be squeezed and molded into confined areas such as behind truck seats and in the trunks of cars
- Encased in a clear plastic shrink wrap, it resists damage from exposure
- Center dispense option allows you to use only the amount you need, leaving the rest enclosed for future use

3M™ Chemical Sorbent Folded Spill Kit C-SKFL31, 31 Gallon

Contents

- 2 rolls of Chemical Sorbent Folded (C-FL550DD); each roll is 5" x 50' folded (19" x 50' fully opened)
- 30 Chemical Sorbent Pads (C-PD1719DD); each pad is 17" x 19"
- 3 temporary disposal bags and ties
- 1 yellow 20-gallon drum with lid and plastic closure ring

3M™ Chemical Sorbent Spill Response Pack SRP-Chem

- Designed for use in laboratories, shipping docks or other areas where hazardous chemicals are shipped, stored or transferred
- Compact size for convenient storage
- Ideal for spills up to 3.5 gallons
- Contains 3 chemical sorbent mini-booms and 10 chemical sorbent pads
- Includes poly bag for temporary storage of used sorbents
- Use instructions included on inside of carrying case
- Outside of carrying case functions as a warning sign

3M™ Petroleum Sorbent Spill Kits and Response Pack

- These folded sorbent spill kits combine all the features of 3M folded sorbents in two convenient sizes of 5 and 31 gallons
- Easy storage—ideal for rapid response
- The 31-gallon spill kit is packed in an element-resistant 20-gallon drum, which is color coded white for easy identification

3M™ Petroleum Sorbent Spill Kit P-SKFL5, Petroll, 5 Gallon

Contents

- 3 rolls Petroll Petroleum Sorbent Folded per case
- Each Petroll is 15" x 26' with perforations every 16" (19" x 26' fully opened) and comes complete with one temporary disposal bag and tie

3M™ Petroleum Sorbent Spill Kit P-SKFL31, 31 Gallon

Contents

- 2 rolls of Petroleum Sorbent Folded (P-FL550DD); each roll is 5" x 50' folded (19" x 50' fully opened)
- 30 Petroleum Sorbent Pads (HP-156); each pad is 17" x 19"
- 3 temporary disposal bags and ties
- 1 white, 20-gallon drum with lid and plastic closure ring

3M™ Petroleum Sorbent Spill Response Pack SRP-PETRO

- Designed to quickly absorb and contain small petroleum spills and leaks
- Compact size; convenient for trucks, shipping departments and for areas of oil transfer
- High absorbency; absorbs up to 4 gallons of petroleum based liquids
- Contains 3 mini-booms and 5 highly absorbent pads to clean up small spills
- Includes poly bag for temporary storage of used sorbents
- Use instructions included on inside of carrying case
- Outside of carrying case functions as a warning sign

WARNING

Failure to properly handle and dispose of sorbents contaminated by hazardous materials can result in serious physical injury or death and/or environmental harm. For proper handling, consult the Material Safety Data Sheet for the material absorbed, applicable safety and health standards, contact your supervisor, or call 3M OH&ESD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414

3M™ PanelSafe™ Lockout System

The 3M PanelSafe lockout system is designed to reliably isolate electrical circuits, effectively “locking out” the circuit for the servicing and maintenance of machines, lighting and equipment. This device is permanently mounted to the dead front of a circuit breaker panel that allows individual or multiple circuits to be locked off simultaneously. The use of 3M PanelSafe increases safety while helping meet applicable OSHA regulations.

HOW TO READ 3M PANEL SAFE PRODUCT NUMBERS

PanelSafe – PS - 07 03

**07= Breaker Spacing
(Measurement 1)**

07 = 3/4"
10 = 1"
12 = 1-1/4"
13 = 1-3/8"
15 = 1-1/2"

**03= Number of Breaker Slots
on One Side (Measurement 2)**

03 = 3 slots
04 = 4 slots
05 = 5 slots
21 = 21 slots

The first two digits correspond to the breaker spacing and the last two digits correspond to the number of breaker slots.

PANELSAFE LOCKOUT SYSTEM

FEATURES	ADVANTAGES	BENEFITS
Pre-drilled mounting holes	Fastens directly to the service panel dead front using self-tapping screws	Helps save time Helps increase productivity
Energy isolating lockout pins store in a holding device attached to the dead front	Authorized users need only carry their lock and tag	Helps increase productivity Helps save time Helps save money
The entire assembly stores behind the panel door	Makes accessibility easier	Helps increase safety Helps increase productivity Helps save time
Pre-spaced slot design corresponds to center of breaker handles	Easy installation on all brands and models eliminates the need to carry different lock-out devices to fit different panels	Helps save time Helps increase productivity Helps reduce inventory
Permanent installation	Authorized users need only carry their lock and tag	Helps increase safety Helps increase productivity Helps save time Helps save money
Fastens directly to the service panel dead front	The panel door need not be removed for installation	Helps save time Helps increase productivity

Standard 3M™ PanelSafe Unit

A standard 3M PanelSafe unit varies in length, number of slots, and covers according to part number required. Each 3M PanelSafe unit is packaged to include: 1 pin holder; 2 one way pins; 1 two way pin; 1 hook pin; bracket assembly screws and instruction sheet.

3M™ PanelSafe™ Lockout System Accessories

PS-1P

One Way Pin

A one way pin is used to lockout an individual circuit located on either the left or right side of the panel. Available 5 per package, or bulk 15 per package.

PS-2P

Two Way Pin

A two way pin is used to lockout two circuits directly opposite each other. Available 5 per package, or bulk 15 per package.

PS-HP

Hook Pin

The hook pin can be used to secure “on” individual circuits (i.e. dedicated passive circuits), or to lockout individual circuits from either the left or right side of the panel. Available 5 per package, or bulk 15 per package.

PS-SP

PS-SP Spade Pin

A spade pin is used to lockout on either the left or right side of the panel when the measured distance from the center line of the dead front to the max position on the breaker handle in the off position is greater than 2 1/2". Available 5 per package, or bulk 15 per package.

PS-SP05

PS-SP05 Half-size Spade Pin

The half-size spade pin is used to lockout half-size (twin or piggyback) breakers. This pin can lockout an individual circuit by simply rotating the pin 180° for either the top or the bottom breaker. Available 5 per package, or bulk 15 per package.

PS-CP

Cup Pin

The cup pin is used to secure “on” individual circuits (i.e. dedicated circuits) located on either the left or right side of the panel. Available 5 per package, or bulk 15 per package.

PS-PH

Pin Holder

Stores all pins, (except main breaker pin) at each panel location for easy access when lockout functions are required.

PS-SH3

1/2" Shim

On distribution panels where the body of each breaker extends out beyond the level of the dead front. The 1/2" shim is used to raise the surface where a PanelSafe unit is mounted, level with the body of each breaker. Available only in pairs.

3M offers various shims and brackets, so the PanelSafe Lockout System can be used even if the panel front is not flat.

PS-SH1

Standard Shim

On distribution panels where the body of each breaker extends out beyond the level of the dead front, the standard shim is used to raise the surface, where a 3M™ PanelSafe unit is mounted, level with the body of each breaker. Available only in pairs.

3M™ PanelSafe™ Lockout System Accessories

PS-1P

V-Notch Shim

Used on distribution panels that have a V-Notch extending down the length of the dead front, primarily ITE panels. Available only in pairs.

PS-SH2

Slotted Shim

On distribution panels where a raised, rounded bead runs down the center of the dead front; the slotted shim mounts over this bead. Primarily GE panels. Provides a flat surface to mount PanelSafe unit. Available only in pairs.

PS-1P

Offset Brackets

Used in conjunction with a PanelSafe unit when breakers are recessed below the dead front and no area is available to mount a PanelSafe unit by standard means. Available only in pairs.

Barricade Tapes

Product Description:

The Scotch® Barricade Tapes 300 are not only effective but economical as well—with 300 and 1,000 feet of tape per roll. One roll has sufficient length to designate a large area. It is constructed of durable polyethylene plastic and measures 3 or 4 mils thick, which helps prevent accidental tearing. Bold 2-inch black characters on a bright yellow or red background are designed to attract attention and provide a clearly visible warning message.

Product Features

- Durable polyethylene plastic
- Attractive price
- Bold 2" letters
- Long roll length

Benefits

- Resists tears
- Easy to see; attracts attention
- Lower application cost
- Applicable in both small and large areas

Scotch® Barricade Tapes 300 Series

Scotch® Barricade Tapes 300 Series are not only effective but economical as well. One roll has sufficient length to designate a large area and the Buried Barricade Tape rolls are also available in both 3" and 6" widths. The tapes are constructed of durable polyethylene plastic that prevents accidental tearing. Bold 2-inch black characters on bright background are designed to attract attention and provide a warning message that is clearly visible. Available in different sizes and with different warning messages.

Scotch® Detectable Buried® Barricade Tapes 400 Series

Scotch® Detectable Buried Barricade Tapes 400 Series are designed for accurately locating and helping prevent damage to valuable underground utility installations. The tapes have an aluminum backing, which helps make

underground assets easier to find when using a non-ferrous locator. Properly installed, these tapes may help avoid catastrophically inaccurate digging when locating utilities such as electrical lines and communication cables.
