NEW! PIPE AND COMPRESSION GAUGE

Convenient pocket size gauge is used for easy size identification of brass and other pipe fittings. Has measurements for the tube O.D., pipe thread size, hose I.D., a 5 inch standard ruler, and 45° and 37° flares on the front side along with a measurement table on the back side.

Approximate size: 7 1/2" x 4"

Makes identifying and measuring brass fittings easy!
