"AUTOCODE" KEY MACHINE

Computerized Key Machine

- Comes with a full code database included. Simply hit the Code key, enter key code, select vehicle model, choose & install key blank in vise, press "cut the key" & in about 15 seconds your key will be cut.
 - Note:** Not equipped to cut steel keys. Additional cutting wheel required. See cutting wheels below.
- Features a history function that will store key cutting depths & customer information. This is excellent for the customer who loses their keys or for a large business that frequently needs the same key cut. Re-entering code number or original work order, again, is not required to make another key.
- In the Configure mode this machine also features:
 - Complete control of who can access each menu
 - Creates log of users
 - Ability to change passwords to block or allow access to users
 - Backup/restore History functions.
 - Look-up and cut a key by manufacturer by simply entering the first few letters of the manufacturer and highlighting it in the table. Hit the enter key and all the spacing and key information is displayed as well as room to enter in the cuts of the key. Press the enter key and in about 15 seconds your key is ready to go.
- Using either the keyboard or mouse, you can choose Manufacturer, Codes, History or Machine. There are no special codes or reference materials needed with the program to access different manufacturers or code series. The software even features hints to let you know what any particular button is for.
- The WURTH AutoCode is backed by a one year, parts, labor & freight warranty. The control box inside the Autocode key machine is backed by a lifetime warranty.
- Laptop has a 30 day manufacturers warranty
- Autocode Key Machine w/CD ROM Version Software (Laptop not included) Art. # 170224000 (DS)
- Refurbished Laptops Installed w/Windows 95 for Autocode Key Machine Art. # 170224100 (DS)
- Autocode updates are available for purchase.

Laptop is a refurbished unit and has a 6 month warranty against manufacturer defects only.

Autocode Machine has a 1 year warranty against factory defects. This warranty does not cover the key vice or the cutting wheel.

Description	Art #
Autocode Machine	170224000 (DS)
Laptop Computer	170224100 (DS)

(DS) designates item is **D**rop **S**hipped

Minimum system requirements

The WURTH Autocode is designed to work with any 386 or higher PC compatible computer with a CD ROM 2x or higher. The software will require about 20 megabytes of disc space, and the computer must be running Windows 95.

It is recommended that the laptop be kept away from key chips.

WURTH KEY DUPLICATOR

The **WURTH Key Duplicator** is a manual duplicator designed for automotive dealerships.

- Cuts transponder, Vats, and regular keys with speed and accuracy
- Accepts keys up to 4" in length
- 1 7/8" of key cutting travel
- Wire deburring brush included
- Reversible vises hold keys without tipping
- Flip-down key stop for aligning shouldered keys
- Sealed ball bearings in spindle assembly ensure long life
- Rod wipers keep chips off of yoke rod
- Adjustable guide makes calibration easy if needed
- Small and compact
- Aluminum and steel construction for durability and long life

The Key Duplicator comes with a 1 year warranty against factory defects only. This warranty does not cover the vices or the cutting wheel.

WURTH DUCODE KEY MACHINE

Duplicates and Cuts by Code

- Keys can be code cut in less than 30 seconds
- Duplicate keys in less than 15 seconds
- Precision engineered
- Constructed of steel & aluminum
- Holds tolerances of .0005
- Sealed ball bearings are used throughout the machine
- Easily updated when new code series are introduced.
- Key kits available for most applications

Note: Not equipped to cut steel keys. Additional cutting wheel required.

The DuCode Key Machine comes with a 1 year warranty against factory defects. This warranty does not cover the vices or the cutting wheel.

ULTRACODE™ KEY MACHINE

- The Ultracode™ is an Electronic Key Cutting Machine for code cutting cylindrical, automotive and flat keys. This revolutionary machine is able to operate stand-alone or connected to a personal computer in conjunction with Ilco's Kreate-A-Key™ code software. No other Electronic Key Machine better meets the demands of today's professional key cutting centers.
- Duplication Function - A patented Laser Optical Reader allows Ultracode operators to quickly and easily duplicate single and double-sided keys.
- Extensive Code Database - The Ultracode is pre-loaded with over 1,300 digital depth and spacing cards for the precise cutting of cylindrical and automotive keys. Up to 200 user defined (Design-A-Key) cards can be created without the need for a personal computer, further enhancing the machine's extensive service and wide application range.
- Variety of Cut Types - A wide range of lock systems can be cut on the Ultracode including single-sided, double-sided, Medeco®, and Tibbe® keys. The on-board database software allows the operator to select the cut type (laser, regular, flat or plunge) best suited for the selected application.
- Duplication - Depth and spacing information read by the machine while decoding, is automatically converted to original lock specification when duplicating.
- Automatic Calibration - Quick and easy procedure that eliminates potential errors related to manual calibration.

Description	Art #
Ultracode™ Key Machine	170238000

The Ultracode comes with a 3 year warranty against factory defects only. This warranty does not cover the vices or cutting wheels.

TRI-CODE H.S. KEY MACHINE

- The Tri-Code H.S. is an electronic key machine specifically designed to be used by the automotive dealers and locksmiths to cut "laser style" high security keys by code number or duplication. Fast, easy to operate, the Tri-Code H.S. delivers consistent, dependable results!
- Simple to operate, this machine eliminates the guesswork and effort associated with cutting "laser type" automotive keys. In addition to providing "factory perfect" results when originating a key, the Tri-Code H.S. also excels when simply duplicating a key.
- Automatically Compensates for worn cuts when duplicating a key. If key wear is detected on the pattern (original) key, the machine automatically corrects it, producing a duplicate that is cut to original factory specifications with tolerances of +/- .001"
- Fast, Easy-To-Operate
- Electronically controlled operations
- Internal Database contains key codes and cut specifications for popular automotive "Laser Key Applications"
- Fully equipped, ready to cut keys
- 3 Year Factory Warranty from date of purchase

Description	Art #
Tri-Code H.S. Key Machine	170239001

The Tri-Code H.S. Key Machine comes with a 3 year warranty against factory defects only. This warranty does not cover the vices or the cutting wheel.

040 MANUAL / AUTOMATIC KEY MACHINE

- This key machine is an automatic/manual function machine designed to be operated as either an automatic or manual type duplicator. The 040 accepts longer length keys and those with oversize heads.
- Equipped with Super Jaw 2 , four-way vises, grips virtually any cylinder key without the need for adapters. Offset carriage allows for gauging keys from the tips where necessary.

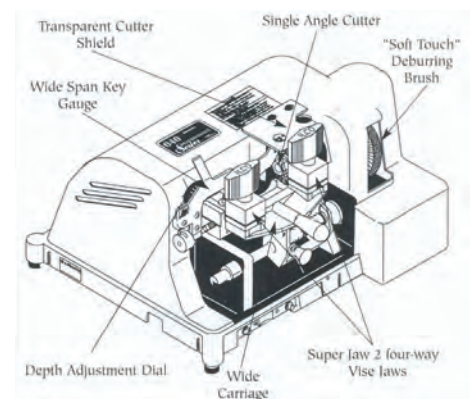

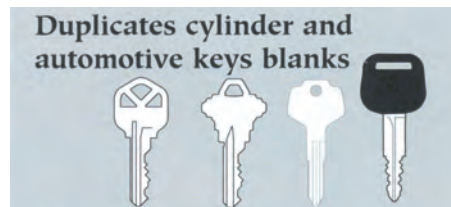

NEW Features

- Dial type depth adjustment system greatly simplifies calibration and improves accuracy
- Machine cover is constructed of high strength, impact resistant material
- Dual function - Operate in Automatic mode for convenience or Manual mode for special situations
- Designed to duplicate virtually all cylinder keys on the market
- New design permits cutting of large bow/long blade keys
- Vise jaws will securely clamp most cylinder keys without adapters
- Great for double-sided automotive keys
- Features a "Soft Touch" deburring brush for deburring cut keys safety
- Cutting cycle is 18 seconds
- Easy to operate... a real money maker
- Meets OSHA and CSA/NRTL.C* requirements

Description	Art #
040 Manual / Automatic Key Machine	170237000

The 040 Manual/Automatic Key Machine comes with a 1 year warranty against factory defects only. This warranty does not cover the vices or the cutting wheels.

HAND-HELD KEY MACHINE

- The WURTH Hand-Held Key Machine is compact, lightweight and easy to operate
- Safety Shield to deflect chips downward and away
- Constructed of Steel, Brass, and Anodized Aluminum Alloy
- The Lower Vise is made from Stainless Steel
- Saves considerable \$\$ for users with numerous applications
- 100% American made

Features

- Quickchange Kits
- Complete, self contained kits
- Interchangeable Punch & Die.
- Depth Knob
- Modular Construction with sturdy ergonomic grip
- Backed by complete WURTH Warranty 90 Day Manufacturer's Defect Only

Benefits

- Greater precision.
- Quicker changeover.
- No searching for individual components.
- No need for multiple machines.
- Less wear than cam sets.
- Minimizes wear.
- Broaden applications as needed with less outlay of expense.
- Drastically reduces down time

Quickchange Kits available separately.

WURTH BENCH MOUNT FOR HAND-HELD KEY MACHINE

WURTH's Bench Mount may be used with all PAK-A-PUNCH models. Simply remove the existing pivot handle, insert the machine into our Bench Mount and you'll be cutting keys with less effort than ever before. Use on the new "Z" keyway Key blanks.

Bench Mount shown with Key Machine

Description	Art #
Bench Mount	171579550

Compare WURTH to Other Hand-Held Machines

Features	WURTH Hand-Held Key Machine	Other Hand-held Key Machines
Modular Construction	YES!	NO
Depth Adjustments	Depth knob for accuracy and longevity	Cam set for convenience but less tolerance and durability
Service	Complete service	Expensive service calls
Punch and Dies	Interchangeable punch and dies - one machine does it all!	Could need as many as 5 different carriages and cams to punch for 1 manufacturer
Versatility / Ease of Use	Quickchange kits - Quicker changeover	Grid system - purchase separate components as necessary
Components	All necessary components are in each kit	Cumbersome and awkward
Operation	Single action	Double action

DISPOSABLE KEY TAGS

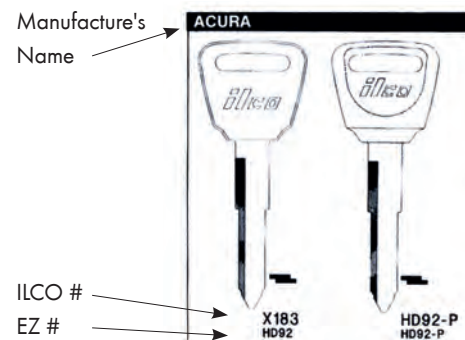

- Made of laminated paper
- Eliminates having piles of keys to sort
- Gives a shop a professional look and saves valuable time for other duties
- Pliable and easy to write on
- Will accept pen or felt marker
- 100 per pack

Description	Art #
Disposable Key Tags	1791100

PAGE SET UP

- The manufacturer's name appears above the key blank drawings.
- The ILCO number appears below each key. Vehicle section references the EZ numbers below the ILCO number.
- International Cylinder section references Silca and Orion key blank numbers below the ILCO number.
- Key drawings may also show important information such as number of pins, the presence of a transponder in the head, etc.

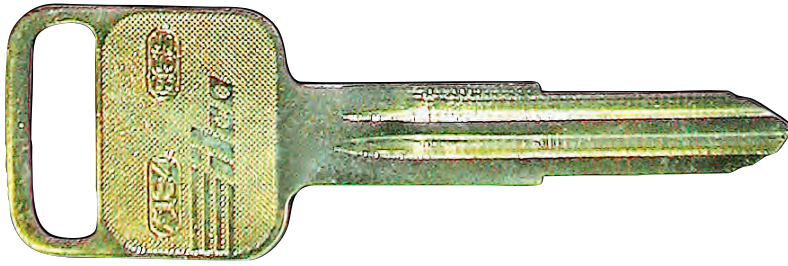

CHECKING MILLING PROFILES

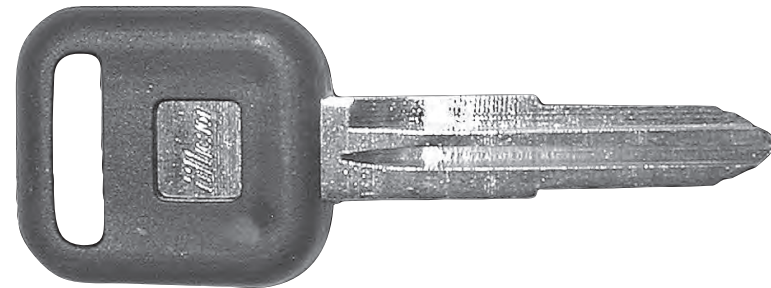

To check the milling profile, hold the key blank by the head and place the tip of the key over the milling profile. Look straight down, check both sides of the milling profile to be certain of a match.
